John 14:6

2021 Laptop Information

At Immaculate Heart College, we are in an exciting phase of upgrading all our Information and Communication Technology (ICT) facilities to bring us in line with the latest networks and systems available in the education sector.

Department of Education has been in a process of taking national academic benchmark testing such as NAPLAN and OLNA towards an online only model, and we are ensuring our students are proficient at the operation of computers and their applications. This will give Immaculate Heart students the best opportunities in their schooling career and beyond.

As NAPLAN testing commences in Year 3 for all Australian students, we ask that all students from Year 3 – 12 be equipped with a laptop device. We have been fortunate to be included in a Purchasing Program through HP, that has been offered to Catholic Education WA schools (please see flyer attached). It features extremely capable entry level models and above, as well as the inclusion of an Accidental Damage Policy. Should these devices not be to your choice, you are welcome to consider the specifications offered on the HP site to assist with purchasing a device more to your individual requirements.

Kind regards,

IHC Administration
